CONDITION OF THE MARKETS

Wheat Unsettled, Owing to Conflicting Rumors, but Little Changed in Price.

Corn Fluctuates Within a Narrow Range-Oats Quiet and Steady-Mess Pork Active, but Weak-Lard Firm at the Close.

MONEY, BONDS AND STOCKS.

Another Break in Atchison, While the Remainder of the List Shows Slight Gains. NEW YORK, Jan. 21.-Money on call was easy at 2@212 per cent., the last loan being made at 2, closing offered at 2.

Prime mercantile paper, 4254 per cent. Sterling exchange was firm and active at \$4.86 for sixty-day bills, and \$4.88% for demand.

The total sales of stocks to-day were 229,938 shares, including the following: Atchison, 47,-177; Delaware, Lackawanna & Western, 23,950; Delaware & Hudson, 6,420; Lake Shore, 8,600; Missouri Pacific, 15,125; Northwestern, 6,420; Reading, 19,300; Richmond & West Point, 6,410; 8t. Paul, 23,970; Texas Pacific, 3,760; Union Pacific, 7,250; Western Union, 7,214.

The stock market was a divided one to-day, with the Southwesterns weak and the dull stocks and specialties remarkably strong, but the general list developed strength as the day wore along, and the result of the day's trading is to leave the list generally fractionally higher than at the close on Saturday. The feeling on the street was conservatively bullish this morning, but the "bears" found a weak spot in Atchison, and the attacks on that stock of Saturday were renewed with marked effect, an extreme decline of 2½ per cent. being established, and it reached still lower prices than had been heretofore attained. The feeling on the stock is very uneasy, and a great deal was heard to-day in regard to the financial condition of the company, and a generally expressed desire was for an authoritative statement of such condition. The other Southwesterns sympathized, although not to a very marked extent, in the weakness of Atchison, and its influence upon the general list was sufficient to hold in check the bullish feeling which provedled but the decrease in the sufficient to hold in check the bullish feeling was sufficient to hold in check the bullish feeling which prevailed, but the fluctuations in the rest of the list, except the coalers and specialties, were confined to fractional amounts generally. There was a free covering of "shorts" at the low figures, and this caused a sharp rally in A chison and brought the rest of the list up to something above the previous best figures. A decrease in the Northwestern earnings for the month of December of over \$200,000 seemed to have no effect upon the improvement, and other items of bearish information were equally without influence. The coal stock were very prominent, and Delaware & Hudson was specially active and strong, followed by Lackawanna and Jersey Central. The Pullman resumed its upward course, and a net gain of more than 5 per cent. over the best price of last week was scored. Chicago Gas Trust and Lake Erie & Western preferred, among the inactive shares, were specially prominent for the advances made, but the others were quiet and strong throughout the day after the first break in Atchison.

First prices were only slightly changed from

First prices were only slightly changed from Saturday's close, except in Atchison and Burlington, and while the tone of the market was strong at the opening the attack upon Atchison checked the improving tendency, and although Atchison dropped 214 per cent., only Missouri Pacific and New England showed any inclination to follow, and the losses in them were for fractions only. Duliness followed, with a rally before noon, when the coal stocks came into preminence, and Delaware & Hudson, with Pullman, led a marked upward movement. Another attack upon Atchison occurred in the afternoon, but it failed to reach as low as in the forenoon, and the demonstration was of short dura-tion. The general list reached the best prices of the day toward delivery hour, after which realizations caused a fractional set back and gave the market at close a heavy appearance, the business doing being only moderate. Atchison shows a net decline of 1¹4 per cent., but Pullman rose 5¹4; Delaware & Hudson, 2¹2; Chicago Gas Trust, 1¹4; Lake Erie & Western preferred, 1¹8, and

Jersey Central, 1 per cent.

The railroad bond market to-day was less active than on any day since the activity began, sales reaching only \$1,377,000, of which \$232,000 wers in the Reading general fours. The tone of wers in the Reading general fours. The tone of the trading was generally firm to strong, but there were few marked movements, and the weakness of Atchison was reflected in a renewed decline in the Gulf, Colorado & Santa Fe bonds, with some talk of a receiver for the road. The firsts lost 2 per cent., to 107, and the seconds, after a drop of 5½ per cent., to 70½, recovered to 74, a net loss of 1 per cent. There were no other losses of moment. Burlington, Cedar Rapids & Northern firsts rose 3, to 99½.

Government bonds were dull but strong. State bonds were dull and steady. Closing quotations were:

TRADING AT CHICAGO.

The Ups and Downs of the Market, with the

Range in Prices of Leading Articles. CHICAGO, Jan. 21 .- A fair speculative business was transacted in wheat, and the feeling was somewhat unsettled, though no very important changes occurred. The opening was rather weaker, with sales at 4 2 3sc decline, and sold off 1se more. This early weakness was evidently due to the fall of snow, which was supposed to have existed throughout the winter-wheat districts. But the market gradually became stronger, and prices were advanced 13c. This improvement was due to good buying, partly on "long" account, and one "bull" trader was reported as having increased his holdings. It was also known that the visible supply would show a liberal decrease, and this assistthe advancing tendency. The subsequent decline of 1c was attributed to a cable advice, giving the stock of wheat at Odessa as over 4,000,000 bushels greater than one year ago. Exceptions were taken to this report, and during the latter part of the session the feeling was steadier, and the closing was about 4e higher than on Saturday. There was very little interest manifested in corn, trading being of a local, spasmodic character, and fluctuations limited to 4c range. The feeling compared with Saturday was steady, though transactions were at slightly reduced prices, and at the close the market was a trifle lower than on Saturday. Oats were quiet and steady. There was no pressure to buy or sell, hence price changes were only 182014c. Considerable interest was mani-

trade was reported in short-rib sides, and the feeling was weaker. Prices were about .02½c higher at the opening, but the market soon weakened, and prices declined .15%.17½c. At the reduction the inquiry was fair, and the market ruled steadler, and prices advanced .07½ %.10c and ruled quiet. The leading futures ranged as follows:

Wheat, 36,599,000 bu, a decrease of 899,000 bu; corn, 13,236,000 bu, an increase of 1,394,000 bu; oats, 8,395,000 bu, a decrease of 39,000 bu; rye, 1,685,000 bu, a decrease of 2,000 bu; barley, 2,383,000 bu, a decrease of 229,000 bu.

The Foreign Grain Trade. LONDON, Jan. 21 .- The Mark Lane Express, in its weekly review of the British grain trade. says: "Sound wheats maintained their values. The large propertion of inferior grades offered gives the market the appearance of greater depression than actually exists. The sales of English wheat during the past week were 62,659 quarters, at 30s 2d per quarter, against 61,699 quarters, at 30s 11d, for the corresponding week last year. Flour was dull, the fall of 1 franc for French flour depressing the British market. Foreign wheat was weak. Corn was improved in tone, though there is a large American surplus. At to-day's market English wheat sold slowly at a decline of 6 pence, except for the finer kinds. India and Russia were steady. American was weaker. Corn was firm, especially for round. Barley was steady."

INDIANAPOLIS MARKETS.

A Fair Trade in Progress, with Numerou Changes in Values in the Grocery Line. Indianapolis, Jan. 21.

The trade of the week opened fairly active. Traveling salesmen brought in liberal orders on Saturday, and to-day most of them were filled. In the grocery line there was a good deal of activity. The quotations given to-day are those of the new Grocers' Stock Exchange, and it will be noticed that changes are numerous, mostly in the adjustment of prices, which all grocers are to be governed by. Dry goods men had a fair trade, prices all along the line ruling firm. In the produce markets little was doing. Eggs, with the cooler weather, are firmer, and to-day packers will pay 14c for them, while they sell from the stores at 15@16c. Receipts of butter are very large, and prices, as might be expected, are low and weak. It must be a choice article to bring more than 10c per pound. Poultry continues to come in slow, and prices rule strong at our quotations, but an advance of 1c before the week closes would not be a surprise. Choice apples have taken on a firm tone again, and are meeting have taken on a firm tone again, and are meeting with better sale. Irish potatoes are in good supply and selling slow. Oranges (good fruit) are firmer and some higher. In lemons little is doing. The hide market is weak, the failures East last week temporarily checking the Eastern demand, and until the snarls are straightened out dull times may be expected. The week market pretimes may be expected. The wool market presents no new features, prices ranging as for some weeks past. The seed market is active at unchanged prices.

There was a good attendance on 'Change today, and, with a good demand for both wheat and corn, bidding was quite spirited. Receipts were more liberal. The quotations below cover the range of prices in this market:

Table Mats and Tray Cloths. Detroit Tribune. Table mats are again in fashion, and this

is sensible, as they protect the tablecloth. Crocheted mats are the most durable, easily washed, and if made firm and even are very pretty, as well as useful. They may be round, oval or in an octagon shape. To make these mats a round cord or heavy knitting cotton is required. Set up from six to twelve stitches and crochet long stitch around these stitches, which are gathered up into a center. Widen in each row. If the mat is to be an octagon shape, widen in every eighth stitch, and keep the same widening stitches until the mat is sufficiently large. Tray and carring cloths ficiently large. Tray and carving cloths and square center pieces for the table are made to match. These are of butchers' or fine twilled linen, with an inch hemstitched edge. At the corners, or in the middle of the cloth, some pretty design is stitched with silk or filosel.

A pretty design for a carver is a carving knife and fork crossing each other, the knife in some shade of peacock blue, and knife in some shade of peacock blue, and the fork in terra cotta. Both of these shades are permanent if a little care is used. Tea utensils may be worked in the corners of a tray cloth. A pretty design for a set of tablecloths are circles interlapping with rays diverging from a center point and worked in several colors.

Another pretty fancy for the breakfast, tea or luncheon table is a covering made of what is known as oatmeal cloth. It is a sheer odd-looking fabric. It is edged with four or five rows of herring-bone stitches in colored wash silk and the edge turned with a fall of lace. These covers, lined or un-

a fall of lace. These covers, lined or unlined, are simply beautiful, and are not so costly as bolting cloth, or as delicate or transparent, but out of which the most charming articles are fashioned from bed-spreads to a toilet mat. It is ornamented very effectively with hand painting, as the very lightest embroidery is too heavy for

Hot Lemonade.

Medical Classics. Hot lemonade to "break up" a cold is an old and safe household remedy, and it certainly is of value. Instead of sugar, I have for many years advised my patients to add from a tea to a tablespoonful of chemically pure glycerine to the lemonade. A tablespoonful of good pure brandy or whisky may be added. Do not use more than a desertspoonful of the brandy or whisky to an average size goblet of lemonade; drink it as hot as you can, and then cover up well. Be careful when you get into a per-spiration. Don't go thrashing about, kicking off the covers, and undoing the good. By an average size goblet I mean one that holds about eight to ten ounces. The cough of consumptives will often be relieved by a mixture of glycerine, crystallized sugar, and whisky. This mixture, allowed to trickle slowly down the fauces (throat), allays irritability, and keeps the mucous membrane moist. To make it, t ake two parts glycerine, one part whisky, and just enough crystallized sugar to give a semi-fluid consistency.

Vegetables with a strong flavor, such as onions and turnips, will be much improved by putting them to boil in cold water, renewing this from a kettle of boiling water as soon as it comes to a scald.

If the flat iron is dirty tie up a piece of yellow beeswax in a rag, and when the iron is almost, but not quite, hot enough to use rub it quickly with the wax, and then with a coarse cloth.

EPPS'S COCOA

BREAKFAST. "By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up strong enough to resist every tendency to disease. Hundreds of subtle maindies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortined with pure blood and a properly nourished frame."—Civil Service Gazette.
